

## CURRICULUM VITAE

**Name:** Blažo Đurović  
**Date of birth:** 13. 06. 1986.  
**Gender:** Male  
**Address:** Peraška 9A, Tivat  
**Phone number:** +38269862625  
**E-mail:** blazo.djurovich@gmail.com

### *Objective*

Working in IT sector. Solving interesting problems. Learning, acquiring new skills and putting them to good work.

### *Education*

**Master of Sciences in Electrical Engineering**, University of Montenegro (2012) with thesis “Multithreaded implementation of LPA-ICI<sup>1</sup> filter”

**Specialist Degree in field of Computer sciences** at Faculty of Electrical Engineering, University of Montenegro (2009)

**Bachelor degree** in telecommunications, electronics and computers at Faculty of Electrical Engineering, University of Montenegro (2008)

### *Research experience*

#### **Papers:**

- “Multithreaded processing in image filtering in .Net framework” for the conference “Information Tehnology - IT 2011”

#### **Research projects:**

- “Inteligentne tehnike pretraživanja sa primjenama u parametarskoj estimaciji, komunikacijama i energetici”; March 2013 – March 2015
- “Lokalna polinomijalna aproksimacija i tehnike multiparametarske optimizacije u estimaciji parametara i filtriranju signala”; December 2008 – November 2011

### *Computer Skills*

MS Office, Adobe Photoshop, Adobe Premiere, Corel Draw, Visual Studio Administration via Active Directory, Google Sketchup, Microsoft Windows, Linux (Ubuntu), etc.

Programinje languages: C# (ASP.NET, WPF etc.), MATLAB, HTML/CSS, PHP, MySQL, Microsoft SQL, C/C++, Java.

### *Work experience*

- I worked as an ICT coordinator at Maritime School in Kotor for 4,5 years. During this time I administered and improved ActiveDirectory system that is used for configuration of domain (internal) computers. Increased the

<sup>1</sup> Local Polynomial Approximation with Intersection of Confidence Intervals - a multipurpose filter with primary use in image processing.

security of the Fileserver, which housed the majority of School's documentation, by linking it to the Domain.

- Played key role in the expansion and upgrade of their computer equipment. Was in charge of designing specifications for hardware and its procurement according to demands and the vision of management. During my time the school went from having 4 projector equipped classrooms to having all its classrooms be equipped with both a projector and a computer.
- Extensive experience with C# programming language for use in desktop applications. I worked with a wide variety of both new and old .NET technologies (WinForms, ASP.NET, WPF, Entity Framework etc.). Made multiple utility applications for the employer.
- Using C# and Microsoft SQL technologies created a Student information system for his employer. It includes such features as notification of parents via SMS in case of student absence.
- I have been administrating our school's web site at [www.pomorskakotor.com](http://www.pomorskakotor.com), its transfer from one web host to another and the design and installation of the Moodle based student help section.
- Developed and am administrating an ASP.NET based site: [www.grbalj.com](http://www.grbalj.com).
- Designed a Wordpress based web presentation for the NGO Submariner: [www.podmornicar.org](http://www.podmornicar.org).
- I worked with and set up Wordpress, Moodle web presentations.
- I configured, administered (including designing required reports) and trained the librarian in use of Koha ILS.
- Currently employed in Maritime school in Kotor.

### *Other*

B category driver's license.

Health & Safety manager permit.

Excellent understanding of English language (written and spoken). Good writing and speaking skills.
